PERSONAL PROFILE

As a passionate Web Developer, specializing in creating dynamic and user-friendly websites. I have crafted numerous websites and applications that have significantly improved user experience and business functionality. My expertise lies in HTML, CSS, JavaScript, and various modern frameworks. I pride myself on staying up-to-date with the latest technological trends to provide cutting-edge solutions to clients.

WORK EXPERIENCE

FRONT-END-WEB-DEVELOPER
WeDev Creative Company   **2023-TILL PRESENT**

Enhanced user experience for an e-commerce site, leading to a 20% increase in customer engagement. Agile management, consistently met deadlines and collaborated effectively with cross-functional teams.

BUSINESS CONSULTANT
Engineering Compay   **2021-2023**

Conducted market analysis, enhanced process efficiencies, and fostered client relationships. Played a pivotal role in a project that increased production efficiency by 15%, resulting in significant ROI for the company.

JUNIOR PROJECT MANAGER
Studio Studio Engineering   **2020-2021**

Coordinated multiple projects, ensuring they adhere to timelines, scope, and budget. Detailed project planning, stakeholder communication, and resource management. Streamlined the processes for a key project, that resulted in a 10% reduction in delivery time.
